

Change to a Better Utility Billing Company!

It happens every day at Apartment Communities across the country and it causes problems from angry residents to lost revenue. What is it? Loss due to errors created by Utility Billing Companies. Not only that, but inconsistencies and a lack of service is enough to simply drive you crazy. But hey..what can you do about it..they're all the same, right?

Not at all and these key indicators signal the need to change:

- Unexpected changes in the billing fees.
- Lack of managing your PUC filings.
- Crossing bills with previous and new residents.
- Voice mail. Voice mail. Voice mail. Pick up the phone!!!
- Same for emails.
- Estimated billing due to unrepaired or replaced broken meters.
- Lack of an audit or inability to read and measure for leaks in real time.
- Out of compliance with state regulations.

Solve your Water Billing issues today. Calling Multi-Family leaders to the Resolve Partners Water Billing solution for the highest NOI, Satisfaction Levels and Conservation.

Resolve Partners has a long standing reputation for providing expert and professional service to the Multi-Family industry and as Billing Provider, Tenant Screener or Debt Collections Consumer Reporting Agency; we are committed to exceeding your expectations 365 days a year.

So exactly **how** can Resolve Partners provide this billing service so well where others have failed? Our expertise and experience are all designed to proactively address points of concern before they arise. For example, a Pre-Bill will identify broken meters well before the next months' Meter Analysis. We consider that a valuable resource and will examine the Pre-Bill not only for accuracy; but PRECISION. Not only do "the numbers match", but the "**right** numbers match" and we advise you of any oddity in the billing.

Price, product and service delivery create the cornerstone equation of Value that we promise each client every single month. So don't hesitate in calling us for a complete quote of services and if you do not have meters in place today; we also provide the installs.

It would be a great day to hear from you at 336-217-1008 or [email us here](#) for more information.

Please feel free to contact us at any time.
